

**TEXAS COMMISSION ON JAIL STANDARDS
JAIL INSPECTION REPORT**

Facility Name: Crockett Co. Jail

Date: October 14, 2019

Item	Section	Paragraph	
1	263	.55	All life safety equipment shall be inspected, maintained, and tested by persons qualified to do so (whether under vendor contract, by state or private agency or otherwise) in order that such equipment shall be safe, secure, and fully operative at all times. On the day of inspection, the fire panel was in "trouble" and would not reset to normal mode.
2	265	.3	Inmates confined in a holding cell or detoxification cell shall be observed by facility personnel at intervals not to exceed 30 minutes. During the review of the 30 minute face-to-face observations of inmates in holding and detox, it was determined that staff exceeded the 30 minutes required by minimum jail standards by as few as 1 minute and up to 30 minutes on a consistent basis.
3	265	.13(a)	Each sheriff/operator shall investigate and verify the veteran status of each prisoner by using data made available from the Veterans Reentry Search Service (VRSS) operated by the United States Department of Veteran Affairs or similar service. During the review of VRSS documentation, it was determined staff are logging "Jailer failed to check" on numerous occasions with no follow-up at a later date.
4	275	.1	Facilities shall have an established procedure for documented, face-to-face observation of all inmates by jailers no less than once every 60 minutes. During review of 60 minute face-to-face observations of inmates, it was determined that staff exceeded the 60 minute checks required by minimum jail standards by as few as 1 minute and up to 10 minutes on a consistent basis.

Jason Jouett-TCJS Inspector
